

GreenPrint

Xerox® Solid Ink Edition

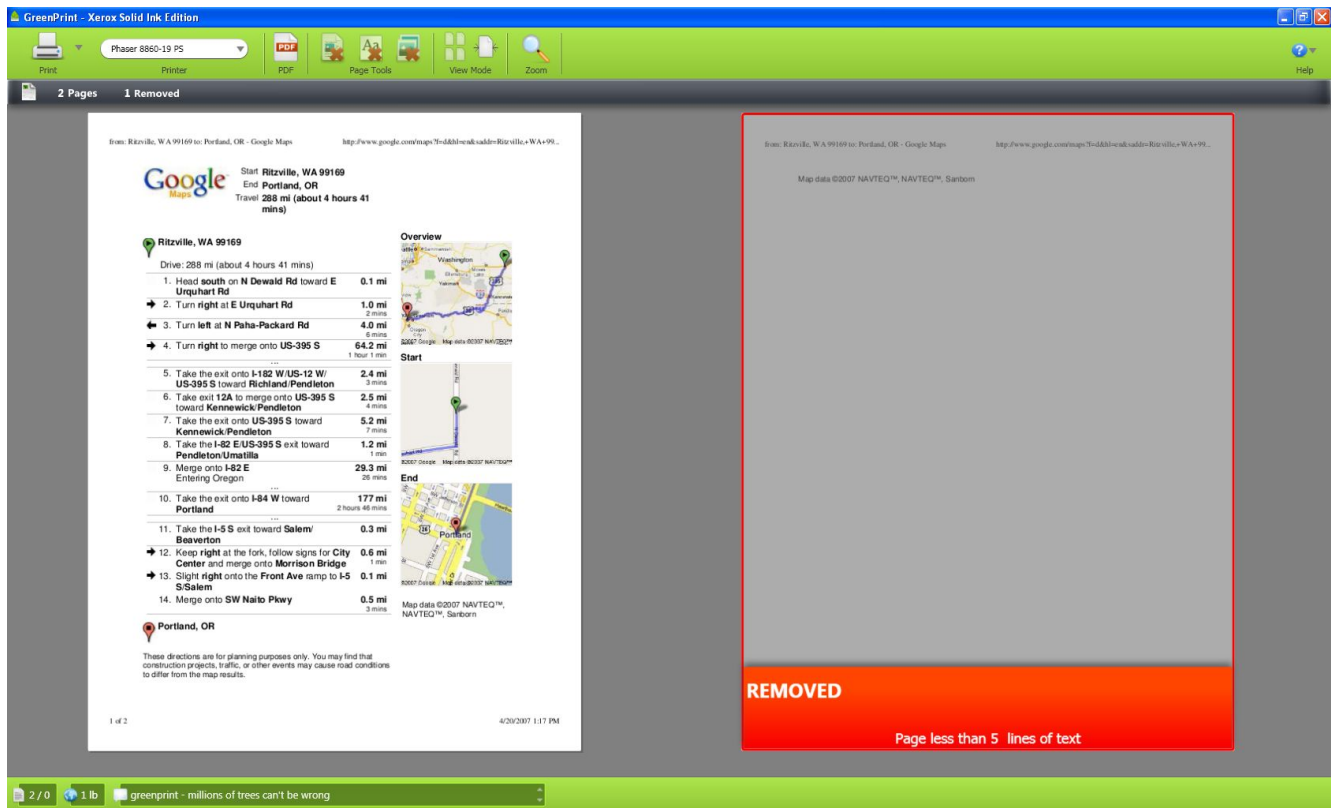

Overview for Solid Ink Customers

What Is GreenPrint?

Overview

GreenPrint is a simple piece of software which eliminates waste associated with printing (most notably that last page with just the URL, banner ad, or legal jargon) saving paper, ink, and time while also saving trees, reducing greenhouse gasses, and decreasing waste.

GreenPrint is a client-side application and a virtual print driver that can be used with any application by selecting GreenPrint as the printer instead of the Xerox® device. When the GreenPrint printer is chosen, the GreenPrint preview appears and displays all of the pages of the print job on the screen at once. You can then include or remove pages from the print job, and see how many pages have been saved. At that point you can print to any Solid Ink device to which you have access.

Operating System and Hardware Compatibility

- Hardware: 1 GB Ram, 1.6GHz+ Processor (Core 2 recommended), 100 MB Free disk space
- Microsoft .NET Framework 3.5 SP1
- Windows XP/Vista/7, 32-bit or 64-bit

Application Compatibility

GreenPrint should work with any application that you can normally print from. If you come across a problematic application, please contact xeroxsupport@printgreener.com for assistance.

GreenPrint Xerox® Solid Ink Edition

Bundle Structure

GreenPrint and Xerox have teamed up to offer unlimited, free copies of a customized Solid Ink Edition of GreenPrint at no cost to any Xerox® Solid Ink customer. In order to take advantage of this free offer all you have to do is install a qualifying Solid Ink device, and then download and install the Solid Ink Edition of GreenPrint. You can download as many copies of the software as you would like so that all Solid Ink users within your organization can take advantage of using GreenPrint. No license key is required for use.

Printer Compatibility

The Xerox® Solid Ink Edition of GreenPrint is compatible with the following devices:

- Phaser 8860 and 8860MFP
- Phaser 8560 and 8560MFP
- ColorQube™ 9201/9202/9203

Please note that the Xerox® Solid Ink Edition will only work with Xerox® Solid Ink devices. You will not be able to print to other Xerox devices or other manufacturers' devices. If you would like a full version of GreenPrint that works with all printers, please contact your Xerox Account Manager or GreenPrint for more information.

Download Instructions

For installation instructions, pre-requirements and to download the Xerox® Solid Ink Edition of GreenPrint, go to <http://printgreener.com/xerox>.

Environmental Impact

GreenPrint is a great addition to the Solid Ink waste reduction goal. GreenPrint is a unique tool in that it makes printing more efficient while also having a measurable environmental impact. The GreenPrint Report tracks every page saved and allows you to see your reduction in greenhouse gasses and the percentage of a tree saved.
